

BACHELOR OF ARTS IN PSYCHOLOGY

SF State Downtown Campus

160 Spear Street, 5th Floor
San Francisco, CA 94105

The Bachelor of Arts in Psychology offers a foundation in the analysis and critical evaluation of psychological literature; the communication of psychological concepts and facts both orally and in writing; and the development of psychological research including design, data analysis, measurement, and ability to use computer for statistical analysis. Our B.A. degree provides an excellent foundation for work in the community in many fields that involve human relations and behavior. In addition, the undergraduate degree is excellent preparation for graduate school in all fields of psychology, other behavioral and social sciences as well as for graduate programs in business, law, medicine, and many other professional fields.

Complementary Studies

Bachelor of Arts students must complete at least 12 units of Complementary Studies from courses with a prefix other than PSY, and not cross-listed with PSY. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Additional ways to complete Complementary Studies for students in the Psychology major include 12 units of languages other than English, 12 units from an approved Study Abroad program, 12 units from partial completion of a certificate, or 12 units from any combination of courses in ANTH, BIO, CAD, CJ, CSC, COUN, EDUC, ETHS, PHIL, and SOC, or a coherent group of courses approved by a major advisor as complementary to the major. All of the units must be separate from units counted in the major. Courses that fulfill the complementary studies requirement may be lower or upper-division units, resident or transfer units, or units taken in approved study abroad programs. Consult with your major advisor for assistance.

Students who have earned AA-T or AA-S degrees may use courses from community colleges to fulfill the Complementary Studies requirement provided the course has a prefix other than Psychology. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.
